Applications are invited for two Assistant Professor positions in chemical engineering. Applications from all areas of chemical and biochemical engineering will be considered. The successful candidates will develop a vigorous program of independent research, and teach chemical engineering courses at the undergraduate and graduate levels.

Candidates must have a Ph.D. degree in chemical engineering or a closely related field, have demonstrated excellence in research, and be committed to excellence in teaching. We expect the candidates to be able to teach any of the courses in the undergraduate chemical engineering curriculum as well as graduate courses within their field of specialization.

Consult http://chms.engineering.ucdavis.edu/ for our on-line application procedure and requirements. The position is open until filled; but to assure full consideration, applications should be submitted no later than 5pm October 15, 2015, for a start date of July 1, 2016. This recruitment is being conducted at the assistant rank. The resulting hire will be at the assistant rank, regardless of the proposed appointee's qualifications.

UC Davis is an affirmative action / equal opportunity employer, and is dedicated to recruiting a diverse faculty community. We welcome all qualified applicants to apply, including women, minorities, individuals with disabilities, and veterans.
