VIII. TEACHING (2014 - present) at UNIVERSITY OF DELAWARE

- **Fall 2014** Introduction to Polymer Science and Engineering CHEG600/MSEG630 (40 students) – 3 credits co-taught with Prof. April Kloxin
 - Instructor Prepared – 4.71, 4.67
 - Instructor Knowledgeable – 4.71, 4.83
 - Instructor Communicates Well – 4.65, 4.56
 - Instructor Stimulates Interest – 4.53, 4.33
 - Instructor One of the Best Teachers – 4.35, 4.11
 - Major Positive Sentiment – “*Dr. Jayaraman has been a great addition to the Chemical Engineering Department. Without question, she is the most enthusiastic professor I have ever had here at the University of Delaware. Dr. Jayaraman was very engaging during lectures, and her concerted effort to stimulate students added another dynamic to the course. While the course material in it of itself was interesting, Dr. Jayaraman strived to show how it applied to real world problems. I appreciated how she was also able to demonstrate how her current research, as well as the research of other professors on campus, complimented the theories and concepts studied in class. I would recommend everyone within the department to take a class with Dr. Jayaraman because of the fun and energy she brings to the curriculum. Dr. Jayaraman was an effective communicator that also ensured that all of her students understood the course material presented. Her ability to thoroughly answer class questions in a concise manner significantly helped me personally perform well in the class.*”

- **Fall 2015** Introduction to Polymer Science and Engineering CHEG600/MSEG630 (47 students) – 3 credits co-taught with Prof. April Kloxin

 - Instructor Prepared – 4.72, 5.0
 - Instructor Knowledgeable – 4.86, 4.75
 - Instructor Communicates Well – 4.36, 5.00
 - Instructor Stimulates Interest – 4.39, 4.75
 - Instructor One of the Best Teachers – 3.97, 4.5

Major Positive Sentiment – *“Fantastic teacher. Exam questions were exactly what she taught you in the class nothing beyond that was discussed in the class. Emphasized and repeated the concepts enough so that you could understand it well. I think that she can really put herself into students' place to know how the learning takes place, thus she has a really nice way of teaching.”*
- **Spring 2016** Introduction to Chemical Engineering CHEG 112 (139 students) – 3 credits co-taught with Prof. Christopher Roberts. Scores correspond to multiple lecture and recitation sections of CHEG112

 - Instructor Prepared – 4.52, 4.90, 4.83, 4.78
 - Instructor Knowledgeable – 4.57, 4.90, 4.72, 4.78
 - Instructor Communicates Well – 4.14, 4.60, 4.44, 4.61
 - Instructor Stimulates Interest – 4.19, 4.67, 4.39, 4.67
 - Instructor One of the Best Teachers – 3.95, 4.43, 4.22, 4.50

Major Positive Sentiments – *“She had good humor and enthusiasm which made the class more interesting. I like how interactive she made the class. I think the use of the tablet slides and the handouts really help the students learn better because it provided us with a lot of examples on different problems. These examples helped me study better and understand the homework assignments better”*

“Doctor J(jayaraman) was great and very helpful in office hours. Her usage of electronic materials was very appreciated because it brought structure to the course and allowed me to see exact slides for concepts I was struggling with. Also her humor helped to keep class interesting.”
- **Fall 2016** Introduction to Polymer Science and Engineering CHEG600/MSEG630 (48 students) – 3 credits

 - Instructor Prepared – 4.90, 4.60
 - Instructor Knowledgeable – 4.93, 5.00
 - Instructor Communicates Well – 4.60, 4.40
 - Instructor Stimulates Interest – 4.48, 4.40
 - Instructor One of the Best Teachers – 4.27, 4.20

Major Positive Sentiment – *“Prof. Jayaraman is one of the most engaging professors I've had in the department. I haven't done great in her class, but I know that that fault lies on me and my time management, not in her teaching”*
- **Spring 2017** Introduction to Chemical Engineering CHEG 112 (135 students) – 3 credits co-taught with Prof. Joshua Enszer. Scores below denoted correspond to multiple lecture and recitation sections of CHEG112.

 - Instructor Prepared – 4.54, 4.54, 4.60, 4.56, 4.48, 4.60
 - Instructor Knowledgeable – 4.71, 4.62, 4.73, 4.56, 4.81, 4.62
 - Instructor Communicates Well – 4.21, 4.23, 4.27, 4.22, 4.03, 4.27
 - Instructor Stimulates Interest – 4.02, 4.00, 4.13, 4.56, 4.23, 4.27
 - Instructor One of the Best Teachers – 3.67, 4.23, 3.87, 3.44, 3.68, 3.85

Major Positive Sentiments – *“Professor Jayaramen is a great professor. She communicates the information clearly. Her energy is candid because she actually cares about the class. She is very eager to receive questions and answer them. In office hours she guides student to answers instead of giving the answers out right. I found this immensely helpful on the two occasions I went to her. I found that other office hours may get answers quicker but her office hours made me understand the subject the best. I would very much enjoy taking another class taught by Professor Jayaramen and look forward to that possibility.”*

“Prof J has high, but reasonable, expectations for her honors students that motivate us to overcome challenges in the course and ultimately grow in the way of Chemical Engineering knowledge as well as problem solving skills. Additionally, I find that Prof J’s understanding of the importance of “soft skills” in engineering really make her insight very valuable and I appreciate her well-rounded approach to a very technical curriculum”
